Here's What Some are Saying About Empowerment Darshan™ with Lumenaria...

"Being in the presence of Lumenaria was a healing experience in itself. The teachings and meditations were phenomenal and relevant to my current life circumstances and propelled me forward on my spiritual awakening journey. I am so grateful to her!"

- Karen, Santa Cruz, CA

"I felt so much gratitude during Darshan; it was so powerful! Beautiful location! Lovely people! Exquisite energetics! I came in feeling sleep deprived and left feeling energized, harmonized and aligned to my highest authentic self. I entered Darshan not knowing what to expect, what was coming. I left feeling calm, happy, renewed, grateful, energized with new dimensions and dynamics of self, and aligned with Universal Soul. I am overflowing with gratitude to receive teachings, energetics, love and light offered by Lumenaria, shimmering with her love, her light, her benevolence as she ignites the open heartedness, the love, the light and the benevolence of everyone in her presence. Such a powerful experience to witness the awakenings and glow of one another...to open and unfold to the magnificence of our own individual light. A light that harmonizes, bringing out the full spectrum of light emanating from within. This was a beautiful, deep, enriching experience that lingers, that is internalized and carried forth into the world. I felt my entire ancestral line being touched and enhanced by the energetics activated during and after attending Lumenaria's Empowerment Darshan."

- Louise Scott, San Rafael, CA

"I felt really light and open. Uplifted and yet fully grounded. I can absolutely see the "work" being done. I've actually had an extremely challenging weekend & week since the Empowerment Darshan with my relationship. And yet, my experience is that even inside of massive conflict I'm able to still stand strong in myself and stay connected to the fulfillment that's here and also that lies ahead. It was expansive and fun connecting with the circle, sharing the synchronicities, and being affirmed in some of what I'm experiencing as everything shifts around me, as the world changes and time seems to be a fluid thing."

- Michelle Lyn, San Rafael, CA
